Nozomi Networks is trusted by industry leaders around the world to provide deep IoT and OT security and visibility. Don’t just take our word for it – read on to see what customers with critical industrial control systems or automation networks say about their experience with Nozomi Networks.

"This product keeps its promises."
Guardian gives us precise alerts, with almost no false positives. Real events are clearly visible with the risk level indicator, making it easy to decide when and how to react.

Senior System Architect
Energy and Utilities Industry

"Nozomi Guardian is literally window to the wire."
I have had an extremely positive experience with Nozomi. Equipment was installed according to plan ... I was amazed that 15 minutes later the things we were learning about our network - not all of it was good!

Lead C&I Engineer
Energy and Utilities Industry

"Nozomi Networks Guardian is now a fundamental element of our network infrastructure."
...and an essential tool for our daily activities.

Head of Power Generation Remote Control System
Energy and Utilities Industry

"Customer-focused and agile company with a solid solution."
At every stage of the process the team ... worked diligently to ensure every goal was achieved. The product exceeded my expectations and continues to improve.

Enterprise Architecture and Technology Innovation
Energy and Utilities Industry
"Exceeded expectations. Deeper visibility than expected."
Best part was the willingness to adapt to our unique environment. ... Not only has their solution done as advertised, and then some.
Senior Industrial Security Manager
Manufacturing Industry

"Ease of deployment, behavioural baselining, visibility and granular asset inventory."
Nozomi won hands down in terms of key features ... The superb support and technical know-how provided by their Lead Engineer ... [was] a key deciding factor.
Senior Security Engineer - ICS
Manufacturing Industry

"Once you try Nozomi and its rich feature set you cannot imagine operating without it!"
Nozomi hands down wins the evaluations ... the Nozomi platform was able to pick out and properly categorize more L2 devices than any other tool in the market place.
Security Analyst
Manufacturing Industry

"We wanted the most advanced technology available."
After extensive review, we chose Nozomi Networks. They brought superior know-how in ICS cyber security, and a proven track record with other industry leaders.
Manager Cyber Security
Oil & Gas Industry
"Easy implementation and exceptional vendor product development from feedback."

Product was easy to install and configure...
The appliance has exceptional ICS network protocol coverage and visibility and the CMC architecture is sufficient for large scale installations.

Principle ICS Security Engineer
Media Industry
